FUNDRAISING - THE FUN METHOD

Bake sales have been around since the year dot. Car wash, car boot sales, delivering phone directories have made their mark in most Rotary Clubs' efforts in raising funds and sad to say have lost their novelty. But Rotarian Julie came up with a brilliant idea of rejecting gifts for birthday boy and hubby Marcel who is next year's sargent at arms. Julie instead requested guests to make a contribution to the Rotary Club of Langkawi and unabashedly placed a donation box at the buffet table and made an announcement to remind us of the box.

Marcel seemed to have no say in this. Some of us who took pity on him gave him a bottle or two of his favourite tippie anyway. His age remains a secret to most of us. However old he is he was not old enough to be subjected to a treasure hunt where he had to "hunt" for his own presents which were cleverly hidden around the restaurant.

Marcel and Julie's friends and most Rotarians celebrated with Marcel and Julie at Mangoes Restaurant in Kuala Triang on 23rd February from 12 noon till late. It was a long day for the both of them. Most important of all we all had fun. And the result of the donation box? Well the amount is not to be sniffed at.

Marcel suggested to do the same for any Rotarian who is celebrating his or her birthday!

Happy belated birthday Marcel. May you live as long as you want and want nothing as long as you live!

LOCAL ARTIST DONATES PAINTING

When she picked up a coffee stained napkin left by a customer in her cafe Amanda noticed the different shades of brown and the abstract art that the coffee created. That was in 2009 and since then Amanda Zulkifli a local celebrity artist has not looked back. Working with coffee Amanda paints portraits, landscapes and abstracts and have exhibited in Berlin, London and Taiwan among other countries. A chance meeting last year with president Hery prompted Amanda to offer an original painting of hers to be auctioned off in one of Rotary's fundraising event. Her donation of an original will be auctioned off at our golf tournament

On 28th February RCL arranged 40 Form 1 and 2 students from SMK Langkawi Pulau Tuba to an educational geopark cruise and eco walk hosted by Tropical Charters and Frangipani Hotel respectively.

The students accompanied by 5 teachers from the school and 4 Rotarians boarded the catamaran from Resorts World in Tanjung Malai. The 3 hour cruise which included lunch exposed the students to their geopark and brought home the point of the importance of preserving their environment. After wards they proceeded to Frangipani Hotel in Pantai Tengah for the eco walk where they learned about sustainability - which incorporate the concept reusing and recycling. This is an ongoing educational campaign and both RCL and Tropical Charters and Frangipani Hotel will work collaboratively .

Calendar

2/3 meeting

9/3 meeting

**15/3 Sunday lunch mtg DGSR
Dr Baskaran attending**

16/3 No meeting

**23/3 Meeting - presentation
of certificates**

30/3 Meeting -

To make a presentation please contact
