

What's Up RCL?

December 2015, Issue No.29

4TH DEC 2015 - THE STAR BRATS
SPEND A MORNING WITH #RCL

"Be a gift to the world"

Here we are, Rotary Club Langkawi #RCL, trying to be a gift to the world and trying to make others a gift to the world.

Cruising along the Kilim River which is famous for its mangroves, caves of bats & fossils and the breathtaking scenery, The BRATs were briefed on the ecosystem of the mangroves, the importance of preserving mangroves & the environment by Rotarians David, Sunil, Raksha, Ulli, Dr Sandra & Dr Vasan & Selva MNS. They also had the chance to partake in a mini cleanup & plant some mangrove saplings.

Well done BRATs! Hope you could help us spread the awareness and make the world a better place to live!

#RCL featured in The STAR newspaper & online blogs

A stepping fame for our baby club! Hoping to inspire more people of Langkawi to join #RCL and help the club grow ;)

LITA AWARDS

Rotary Club Langkawi #RCL stood proud as one of the nominees for Best NGO Partner in the prestigious Langkawi International Tourism Awards (LITA). Rotarians David, Gudrun, Sunil, Ulli & Hussein were suited up chic & classy!

Congratulations to #RCL honorary members, Mr Anthony Wong of The Frangipani Langkawi Resort & Spa for Best 3 Accommodation Award & Dato' Alex of Tropical Charters Langkawi for Best Boat Operator Award #LITA!

Also congratulations to Rotarian Hussein Mohd Said of Mega Water Sports as a finalist in Best Geopark Experience!

Rotarians of #RCL are truly amazing & inspiring successful people who don't just devote their time to their family & career but also to the community & environment!

24th Dec 2015, it's Christmas Eve & everyone is busy preparing for the festive season and so are the Rotarians of #RCL.

Nevertheless, #RCL Rotarians were still able to allocate time to pay a visit to Rumah Nur Kasih today, a welfare home in Ulu Melaka, Langkawi to check on their welfare, scout the condition of their home and evaluate their current medical condition.

This NGO welfare home is depending solely on the food and amenities provided by the public of Langkawi and are not funded by any NGO nor government bodies in particular. The caretaker of the day, Puan Fatimah was kind enough to show us around and point out the problems faced by them, both logistics & social. Among the few problems faced currently are skin infection among the children (probably due to lack of hygiene & clean sheets) lack of fans & pillows, leaking toilets & insufficient sewage clearance.

The children looked happy receiving gifts and foodstuff brought by Rotarians Joe Barr, Sachie, Marcel, and guests. Rotarians Dr Sandra & Dr Vasan from Klinik Mahsuri #klinikmahsuri handed out medicine supply for fever, common cold & skin infections. Also #RCL had guests accompanying the #TLC project, Mr Jagdeep Bath and his lovely wife Sonia, who are both teachers from UK and love to involve themselves in community service.
